

## Individual Plans:

**Unlimited Plan:** This plan is designed for patients in mid Missouri. It includes in person office visits, 24/7 access to a doctor, test scheduling, specialist referral, chronic disease management, anxiety help, and so much more. We cover 90% of health care through this program.

We also provide discounted labs and medications to the Unlimited Plan member. We have deals with various specialists and radiology centers to help you get low prices.

We are not insurance. We recommend that anyone that can afford it get health insurance.

**Virtual + Free Meds Plan:** This plan is designed for patients across the nation. It includes 24/7 access to a doctor virtually (email, video chat, text), wellness and sickness checks, specialist referral, anxiety help, chronic disease management, and more. We cover 80% of health care through this program. Through the Virtual + Free Medications Plan, patients receive **free shipping and free medications** from our free medication list.

**Virtual Plan:** This plan is designed for patients in all parts of Missouri. We cover 80% of health care via our virtual program. We utilize a program that we call “Virtual First.” This means that virtual visits may start virtual and end in clinic (to check a urine, or listen to lungs). These are still virtual visits and do not incur an extra charge. Additional charges may occur if the patient chooses to be seen in clinic without the request of a physician. Our virtual program includes the labs and medicine at cost. We can also ship your medicine at cost (typically about \$2.60).

## Business Plans:

We work with businesses of all types from small businesses to large corporations. We can help you save money on self funded health plans or help you provide a low cost health benefit. Whether you are in mid Missouri near our main clinic, or hundreds of miles away, we can help.

Our virtual clinic for businesses can dramatically change your company's health plan. We have demonstrated lowering company health plan costs by 40-50%. If it seems too good to be true, let us come by and explain the program. Better yet, we will look at the data from your plan and show you how we can save your company money while providing a health plan that your employees value. Our relationship-based structure creates a value for your staff that far exceeds its cost. Email [jen@bigtreemedicalhome.com](mailto:jen@bigtreemedicalhome.com) with questions.
